# Performance Biolubes BioWay 68

## Bio-Based Slide Way Lubricant

### Description

The Castrol *Performance Biolubes BioWay 68* is a premium slide way lubricant formulated for lubricating machine tool ways, slides and guides. It is formulated with optimized plant-based oils and select friction-reducing additives to provide excellent lubricity and extreme pressure properties.

### Applications

- Recommended for ways and other sliding surfaces of machine tools such as grinders, milling machines, planers, and saw guides
- For use on all flat or V-shaped surfaces
- Recommended for both vertical and horizontal ways

### Advantages

- Bio-based formulation
- Exceptional load carrying and anti-wear properties protect ways and guides
- Low stick-slip properties provide smooth operation and accurate work even at slow speeds
- Good adhesion improves non-drip characteristics and reduces run off and dripping in vertical ways.
- Reduces oil loss
- Higher flash point than petroleum-based way lubricants - safer to store and operate
